

EDUCATION

EyeTerra® Education Solutions enables educational institutions and districts to provide interactive campus maps, both online and at on-site kiosks. Students, faculty, parents and prospective students can view vivid aerial images of the entire campus from numerous viewpoints, navigate from building to building, and take instant 360° tours of class rooms, dorms, dining halls and student centers.

This tool allows viewers to see your campus in ways never seen or navigated before. Here are just a few ways that our Education tool can help you today:

- Increase recruiting
- Document important events
- Increase efficiency of foot traffic
- Better serve visitors and students
- Utilize as a campus planning tool
- Indicate proximity of fraternities and sororities
- Showcase special academic and sports facilities
- Highlight surrounding housing & living amenities
- Illustrate school district boundaries and class room styles

For a full demonstration and to preview our Revolutionary™ technology, contact us today at 816.994.3622 or email us at edu@eyeterra.com
